Profile

I am a web development specialist with expertise in HTML, CSS, JavaScript, and UX/UI design. My educational background includes a High School Certificate from Unity Secondary School, where I excelled in Math, Physical Science, Life Science, Geography, and Religion Studies. I hold certifications in UX/UI for Beginners, Front-End Development (HTML), Responsive Web Design, and JavaScript Algorithms and Data Structures from Great Learning and freeCodeCamp. My skills include web development, user experience design, social media management, market research, and proficiency with Microsoft Excel and PowerPoint. Known for my leadership and public speaking abilities, I am passionate about creating seamless user experiences and contributing to innovative projects.

Education

Matric Certificate   Jan 2018 - Dec 2022
Unity Secondary School, Daveyton
I attended Unity Secondary School in Daveyton from 2018 to 2022, earning my Matric Certificate with a Bachelor Pass. I focused on Science, excelling in Math, Physical Science, Life Science, Geography, and Religion Studies. Throughout my high school years, I consistently achieved above-average grades, demonstrating a strong academic performance

Courses

Front End Development - GreatLearning   May 2024
I have completed the Front-End Development HTML course from GreatLearning, gaining proficiency in HTML and hands-on experience in creating responsive and user-friendly web pages. This certification has equipped me with a solid foundation in modern HTML5 features, performance optimization, and accessibility, preparing me for front-end development projects.

Javascript Algorithms & Data Structures   May 2024
(Beta) - FreeCodeCamp
As a result of completing the JavaScript Algorithms & Data Structures (Beta) course, I have developed a solid understanding of JavaScript programming, along with the foundational knowledge of core data structures and algorithms necessary to succeed in software development.
This experience has enhanced my problem-solving abilities, allowing me to tackle complex challenges with confidence and creativity. This course has also fueled my passion for software development, inspiring me to continue pursuing my professional aspirations in this field.

Responsive Web Design - FreeCodeCamp   Mar 2024
By completing the Responsive Web Design course, I have obtained a strong understanding of modern web design principles and technologies, particularly those related to responsiveness and adaptability.
This course has equipped me with the practical skills necessary to create visually appealing and user-friendly websites that are optimized for various devices and screen sizes.
Through this course, I have gained expertise in HTML, CSS, and other tools commonly used in web development, empowering me to produce high-quality web designs that meet the needs of diverse audiences.

UX/UI Design for Beginners - GreatLearning   **May 2024**

By completing the UX/UI Design for Beginners course, I have acquired a thorough understanding of user experience (UX) and user interface (UI) design principles. This course has enabled me to develop my skills in wireframing, prototyping, user research, and usability testing, equipping me with the tools to effectively create and evaluate digital products that are user-centric, intuitive, and engaging.
This knowledge has allowed me to develop a keen eye for details, user needs, and market trends, positioning me to design user experiences that solve real-world problems and drive business success.
